## BOUTIQUE HOTEL AGORA

**A new eco friendly hotel in a typical Brussels house built in 1696 !**

Our inviting and ecological hotel, located in a district listed as a UNESCO World Heritage site, only a stone's throw away from the Grand Place, opened its doors to guests in April 2016!

Completely renovated and decorated with due respect for the original architecture dating back to 1696, its 22 intimate rooms will offer you the comfort you deserve.

As environmental issues are at the heart of our concerns, our hotel sets out to be Eco Friendly and strives to preserve our beautiful planet: thanks to cutting-edge technology we use all the management strategies available to us in the field of water, electricity, heating and insulation.

Furthermore, our establishment is a holder of 'La Clef Verte' Official European ECO label and collaborates with a set of eco-labelled partners.

*« An impeccable experience and service quality in harmony with nature! »*

*Hope to see you soon...*
